

SAFETY DATA SHEET

Plantafol 30-10-10

SECTION 1: Identification of the substance/mixture and of the company/undertaking

	1.1. Product identifier		•
	Mixture identification:		
	Trade name:	Plantafol 30-10-10	
	Trade code:	11515	
	1.2. Relevant identified uses of the s	ubstance or mixture and uses advised against	
	Recommended use:		
	Fertilizer		
	1.2. Relevant identified uses of the s	ubstance or mixture and uses advised against	
	Recommended use:		
	Fertilizer		
	1.3. Details of the supplier of the safe	ety data sheet	
-	Distributed and guaranteed by:		
	Campbells Fertilisers Australasi		
	18 Raymond Road, Laverton No	orth, Victoria, 3026	
	Phone: (03) 9931 2211		
	Fax: (03) 9931 2201		
	www.campbellsfert.com.au		
		for the enfety date cheet.	
	Competent person responsible	for the safety data sheet:	
	regulatory@valagro.com		
	1.4. Emergency telephone number		
		lephone: 131126 (Australia wide – 24HRS)	
SEC1	FION 2: Hazards identification		
OLUI	2.1. Classification of the substance of	or mixture	
		rdous Substances (Classification) Notice 2017	of the HSNO Act
	1996:		
		on hazardous according to the Hazardous Sub	stances
	(Classification) Notice 2017 of		
	Classification according to Regulatio	n (EC) No 1272/2008:	
	The product is not classified as		
	2.2. Label elements		
	None		
	2.3. Other hazards		
	vPvB Substances: None - PB	T Substances: None	WURRENT (
	Other Hazards:		
	No other hazards		
SECT	FION 2: Composition/informatio	n on ingradiants	8///////

SECTION 3: Composition/information on ingredients

3.1. Substances N.A. 3.2. Mixtures:

Name	Product identifier	%	Approval Status (NZIoC)		
Boric acid	CAS:10043-35-3	>= 0.1% - < 0.25%	HSNO Approval Code		
	EC: 10043-35-3		HSR002995		
0////	Substances:				
SVHC					
	>= 0.1% - < 0.25% boric acid Index number: 005-007-00-2, CAS: 10043-35-3, EC: 233-139-2				
	Substance SVHC		S		
	Hazard Classification	: 3.7/1B Repr. 1B H360FD_Sp	pecific concentration limit >= 5.5%		
ECTION	4: First aid measures		ANHIT-		
	escription of first aid measu	res			
In cas	e of skin contact:				
	Immediately take off all con		A Los		
			of having - come into contact with the		
	Wash thoroughly (shower o	ediately with plenty of running	water and possibly with soap.		
In cas	e of eyes contact:	i Batti).			
in out		rinse with water with the evelid	s open for a sufficient length of time

	Eye: Possible irritation according	to the contact time with the pr to the contact time with the pr			
	Eye: Possible irritation according Ingestion:	to the contact time with the pr			
4.3. lr	Eye: Possible irritation according Ingestion: Possible irritation of mouth	to the contact time with the pr	oduct		
4.3. lr	Eye: Possible irritation according Ingestion: Possible irritation of mouth adication of any immediate m In case of accident or unwe	to the contact time with the pr and digestive tract. nedical attention and special tre llness, seek medical advice imp	oduct atment needed		
4.3. lr	Eye: Possible irritation according Ingestion: Possible irritation of mouth indication of any immediate m In case of accident or unwe safety data sheet if possible	to the contact time with the pr and digestive tract. nedical attention and special tre llness, seek medical advice imp	oduct atment needed		
4.3. lr	Eye: Possible irritation according Ingestion: Possible irritation of mouth adication of any immediate m In case of accident or unwe	to the contact time with the pr and digestive tract. nedical attention and special tre llness, seek medical advice imp	oduct		

- 5.1. Extinguishing media
 - Suitable extinguishing media: Water. Carbon dioxide (CO2).

Extinguishing media which must not be used for safety reasons: None in particular.

5.2. Special hazards arising from the substance or mixture Do not inhale explosion and combustion gases.

Burning produces heavy smoke containing nitrogen oxides, phosphorous oxides.

5.3. Advice for firefighters

Wear suitable personal protective equipment and self-contained breathing apparatus. Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

Move undamaged containers from immediate hazard area if it can be done safely. Protective clothing for firefighters (full protective suit, helmet, gloves, boots) must conform to the standard EN469

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel:

No action shall be taken involving any personal risk or without suitable training.

Wear protective clothes giving a total skin protection, gloves, safety glasses and ask with filter P2

Keep away from the affected area people not involved in the emergency intervention. Ensure adequate ventilation, move people in a safe place.

Alert the internal emergency team.

- For emergency responders:

Wear protective clothes giving a total skin protection, gloves, safety glasses and mask with filter P2.

Ensure adequate ventilation, move people in a safe place.

See protective measures under point 7 and 8.

Avoid dust generation

6.2. Environmental precautions

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains. Retain contaminated washing water and dispose it in landfill approved;

If possible, collect in clean plastic containers labeled and reuse as fertilizer.

In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

Suitable material for taking up: absorbing material, sol, sand.

6.3. Methods and material for containment and cleaning up

Collect the product for example using shovel and broom Avoid raising dust

Wash with plenty of water, contain the spill with absorbent material, earth, sand.

6.4. Reference to other sections See also section 8 and 13

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Avoid contact with skin and eyes, inhalation of vapours and mists.

Don't use empty container before they have been cleaned.

Before making transfer operations, assure that there aren't any incompatible material residuals in the containers.

Contamined clothing should be changed before entering eating areas.

Do not eat or drink while working.

See also section 8 for recommended protective equipment. 7.2. Conditions for safe storage, including any incompatibilities Keep in original containers tightly closed in a well-ventilated place far from humidity and heat source Keep away from food, drink and feed. Incompatible materials: Acids, Bases, oxidizing and reducing agents.. Instructions as regards storage premises: Adequately ventilated premises. 7.3. Specific end use(s) None in particular **SECTION 8: Exposure controls/personal protection** 8.1. Control parameters No occupational exposure limit available For dust, in general: ACGIH (2003) : recommended value inhalable dust: TLV/TWA: 10 mg/m³ ACGIH (2003) : recommended value breathable dust: TLV/TWA: 3 mg/m³ - Boric acid - CAS: 10043-35-3 OSHA / PEL (permissible exposure levels): 15 mg/m3 (total dust) and 5 mg/m3 (breathable dust). DNELs (Derived No Effect Levels) for workers: Worker-DNEL long-term inhalation, systemic = 8.3 mg/m3 (1.45 mg B/m3). Worker-DNEL long-term, skin, systemic = 27460 mg/day (B 4800 mg/day). DNELs (Derived No Effect Levels) for population (consumers): DNEL long-term, oral, systemic = 0.98 mg/kg body weight/day (0.17 mg B/kg body weight / day). DNEL long-term inhalation, systemic = 4.15 mg/m3 (0.73 mg B/m3). DNEL long-term dermal, systemic (external) = 196 mg/kg body weight/day (34.3 mg B/kg body weight/day). DNEL long-term dermal, systemic = 0.98 mg/kg body weight/day (0.17 mg B/kg body weight/day. PNECs (Predicted No Effect Concentrations): PNECadd, water = 2.02 mg B/L (fresh water and sea water) and 13.7 mg B/L (water with intermittent releases). PNECadd, sediment = No exposure expected. PNECadd, soil = 5.4 mg B/kg soil weight daily. PNEC STP (industrial waste water) = 10 mg B/L. 8.2. Exposure controls The personal protective equipment must be compliant to the regulation UNI - EN in force Eye protection: Use close fitting safety goggles according to the standard EN 166, don't use eye lens. Protection for skin: Use clothing that provides comprehensive protection to the skin, e.g. cotton, rubber, PVC or viton. Protection for hands: Use protective nitrile gloves that provides comprehensive protection according to EN 374.

> Respiratory protection: In case of dust generation, use anti-powder mask with P2 filters according to the EN 149:2001. The powder exposition limit must be respected Thermal Hazards: None Environmental exposure controls: Prevent the contamination of soil, surface water or groundwater **SECTION 9: Physical and chemical properties** 9.1. Information on basic physical and chemical properties Appearance and colour: White powder/crystals Odour: odorless Odour threshold: not applicable pH 1% at 20°C: 4.8 Melting point / freezing point: not applicable, solid Initial boiling point and boiling range: not applicable, solid not applicable, solid Flash point: Evaporation rate: not applicable, solid Solid/gas flammability: not applicable, the product doesn't contain any flammable substance Upper/lower flammability or explosive limits: not applicable, the product doesn't contain any flammable or explosive substance Vapour pressure: not applicable, solid Vapour density: not applicable, solid Apparent Density: 1,0 Kg/dm3 Solubility in water: 400 g/l at 20 °C Solubility in oil: N.A. Partition coefficient (n-octanol/water): N.A. Auto-ignition temperature: N.A. Decomposition temperature: N.A. Viscosity: not applicable, solid Explosive properties: not applicable, the product doesn't contain any explosive substance Oxidizing properties: not applicable, the product doesn't contain any oxidizing substance 9.2. Other information Miscibility: N.A. Fat Solubility: N.A. Conductivity: N.A. Substance Groups relevant properties N.A.

SECTION 10: Stability and reactivity

- 10.1. Reactivity
 - Stable under normal conditions of storage and use
- 10.2. Chemical stability
 - Stable under normal conditions of storage and use
- 10.3. Possibility of hazardous reactions The product itself is not combustible but it can support the combustion of combustible materials even in the absence of air. The product may intensify fire.

- 10.4. Conditions to avoid At high temperatures, which induce thermal decomposition, the product may release hazardous gases.
- 10.5. Incompatible materials
 - Acids, Bases, oxidizing and reducing agents, combustible materials.
- 10.6. Hazardous decomposition products In case of fire and high temperatures can develop nitrogen oxides, phosphorus oxides, sulfur oxides.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

- Toxicological information of the product:
 - In case of ingestion of large amounts, NO3-ions contained in the product can oxidize the iron atoms in hemoglobin making it unable to carry oxygen effectively to the tissues (methemoglobinemia)

	a) acute toxicity	
	Not classified	
	Based on available data, the classification criteria are not met	
	b) skin corrosion/irritation	
	Not classified	
	Based on available data, the classification criteria are not met	
	c) serious eye damage/irritation	
	Not classified	
	Based on available data, the classification criteria are not met	
	d) respiratory or skin sensitisation	1111111
	Not classified	
	Based on available data, the classification criteria are not met	
	e) germ cell mutagenicity	
	Not classified	
	Based on available data, the classification criteria are not met	
	f) carcinogenicity	
	Not classified	
	Based on available data, the classification criteria are not met	
	g) reproductive toxicity	
	Not classified	
	Based on available data, the classification criteria are not met	
	h) STOT-single exposure	
	Not classified	
	Based on available data, the classification criteria are not met	
	i) STOT-repeated exposure	
	Not classified	
	Based on available data, the classification criteria are not met	
	j) aspiration hazard	
	Not classified	
	Based on available data, the classification criteria are not met	
Тох	cicological information of the main substances found in the product:	
	boric acid - CAS: 10043-35-3	
	a) acute toxicity:	

a) acute toxicity:

Test: LD50 - Route: Oral - Species: Rat > 2600 mg/kg - Source: OECD 401 - Notes: Test material: Boric acid - Based on available data, the classification criteria are not met Test: LC50 - Route: Inhalation - Species: Rat > 2.03 mg/l - Source: OECD 403 - Notes: Test material: Boric acid - Based on available data, the classification criteria are not met Test: LD50 - Route: Skin - Species: Rabbit > 2000 mg/kg - Source: FIFRA (40 CFR 163) - Notes: Test materila: Boric acid - Based on available data, the classification criteria are not met on test materila: Boric acid - Based on available data, the classification criteria are not met not met

b) skin corrosion/irritation:

Test: Skin Corrosive - Route: Skin - Species: Rabbit - Notes: Test material: Boric acid - Based on available data, the classification criteria are not met

c) serious eye damage/irritation:

Test: Eye Corrosive - Route: 18202.val1 - Species: Rabbit - Source: OECD 405 - Notes: Test material: Boric acid - Based on available data, the classification criteria are not met d) respiratory or skin sensitisation:

- Test: Skin Sensitization Route: Oral Species: Guinea pig Source: OECD 406 Notes: Test material: Boric acid - Based on available data, the classification criteria are not met
- e) germ cell mutagenicity:

Test: Mutagenesis - Source: Ames test OECD 471 - Notes: Test material: Boric acid -Based on calculation method, the classification criteria are not met

f) carcinogenicity:

Test: Carcinogenicity - Route: Oral - Species: Mouse - Source: OECD 451 - Notes: Test material: Boric acid - Based on available data, the classification criteria are not met g) reproductive toxicity:

- Test: Reproductive Toxicity Route: Oral Species: Rat = 58.5 mg/kg Source: (Boron) Notes: Test material: Borax deca hydrate; Classification as Repro 1B H360FD
- h) STOT-single exposure:

Based on available data, the classification criteria are not met

i) STOT-repeated exposure:

Based on available data, the classification criteria are not met j) aspiration hazard:

Based on available data, the classification criteria are not met

SECTION 12: Ecological information

12.1. Toxicity

Adopt good working practices, so that the product is not released into the environment. boric acid - CAS: 10043-35-3

- a) Aquatic acute toxicity:
 - Endpoint: LC50 Species: Fish = 79.9 mg/l Duration h: 96 Notes: (Boron)

Endpoint: LC50 - Species: Daphnia = 133 mg/l - Duration h: 48 - Notes: (Boron) b) Aquatic chronic toxicity:

- Endpoint: NOEC Species: Fish = 11.2 mg/l Duration h: 768 Notes: (Boron)
- Endpoint: NOEC Species: Daphnia = 25.9 mg/l Duration h: 48 Notes: (Boron) c) Bacteria toxicity:
- Endpoint: NOEC Species: Microorganisms = 17.5 mg/l Duration h: 3 Notes: (Boron) e) Plant toxicity:
- Endpoint: EC50 Species: Algae = 40 mg/l Duration h: 72 Notes: (Boron) 12.2. Persistence and degradability:

No data available for the mixture;

12.3. Bioaccumulative potential

The product does not contain any bioaccumulative substances

12.4. Mobility in soil
No data available for the mixture;
12.5. Other adverse effects (such as hazardous to the ozone layer).
None known

None known

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Product :Recover if possible. In so doing, comply with the local and national regulations currently in force.

Packaging: Dispose according to regulations.

SECTION 14: Transport information

- 14.1. UN number
 - Not classified as dangerous in the meaning of transport regulations.
- 14.2. UN proper shipping name N.A.
- 14.3. Transport hazard class(es)
- N.A. 14.4. Packing Group
 - N.A.
- 14.5 Environmental hazards IMDG-Marine pollutant:
 - rine pollutant: No
- 14.6. Special Precautions for User N.A.
- 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code N.A.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture 15.1.1. EU-Regulations

Contains no REACH substances with Annex XVII restrictions

15.1.2. National regulations

New Zealand

Classification

: Classified as non-hazardous according to HSNO Act 1996; Hazardous Substances (Classification) Notice 2017.

National Chemical Inventory (NZIoC)

SECT	ION	16:	Other	information	

Full text of H- and EUH-statements:	
Repr. 1B	Reproductive toxicity, Category 1B
H360FD	May damage fertility. May damage the unborn child.
